Segment Software Version Description

Netscape Collabra Server (NSCBRA)
Version 1.0.0.1/3.01 (HP-UX 10.20)

December 10, 1997

Table of Contents

Preface

The following conventions are used in this document:

Bold	Used for information that is typed, pressed, or selected in executables and instructions. For example, select **connect to host**.
Italics	Used for file names, directories, scripts, commands, user IDs, document names, and Bibliography references; and any unusual computerese the first time it is used in text.
<u>Underline</u>	Used for emphasis.
Arrows <>	Used to identify keys on the keyboard. For example <Return>.
"Quotation Marks"	Used to identify informal, computer-generated queries and reports, or coined names; and to clarify a term when it appears for the first time. For example "Data-Generation Report."
`Courier Font`	Used to denote anything as it appears on the screen or command lines. For example `tar xvf dev/rmt/3mm`.
Capitalization	Used to identify keys, screen icons, screen buttons, field, and menu names.

1.   Software Version Description

1.1   Scope

This Software Version Description (SVD) contains a description of the Netscape Collabra Server (NSCBRA) segment for the Defense Information Infrastructure (DII) for Hewlett-Packard (HP)-based machines.

1.1.1   Identification

Segment Name:	Netscape Collabra Server
Segment Type:	COTS:COE CHILD
Prefix:	NSCBRA
Home Directory:	*/h/COTS/SuiteSpot/ns-home-3*
Required License:	Netscape Collabra Server License.
Version Number:	1.0.0.1/3.01
Platform:	HP (UNIX) Workstation/HP-UX 10.20

1.1.2   System Overview

Purpose:	The NSCBRA segment is a News Server application produced by Netscape Communications Corporation, which manages the collaboration between common interest discussion group. Access to news threads are performed with the Network News Transmission protocol (NNTP).
Usage:	This NSCBRA segment can be used to host and transmit web pages between DII teleconferencing sites.
References:	*Netscape Collabra Server – Administrator's Guide (UNIX)* from Netscape Communications Corporation (accompanies each licensed copy of the Netscape Collabra Server). On-line documentation accompanies the software, and additional documentation can be downloaded from Netscape at *http://www.netscape.com/*.

1.1.3   Product Information

Product Qualification	The Defense Information Services Agency (DISA) purchased the Netscape "SuiteSpot" Server Suite for use throughout DISA, including DII. The Netscape Collabra Server is part of the SuiteSpot.
Product Restrictions	DISA purchased a 95,000 person user license for each of the SuiteSpot servers. Thus, as long as fewer than 95,001 users are being served, DISA can deploy an unlimited number of Netscape Collabra Servers.
Product	The NSCBRA segment requires no other software packages installed on the

Dependencies   machine to run. However, due to the manner in which it was segmented, the segments *Netscape SuiteSpot Servers* and *PERL* must be installed on a machine prior to installing the Netscape Collabra Server. All segment testing was performed on HP Unix workstations running HP-UX 10.20 and the DII COE Kernel 3.2.

2. Referenced Documents

Netscape Collabra Server – Administrator's Guide (UNIX) from Netscape Communications Corporation accompanies each licensed copy of the Netscape Collabra Server.

Netscape Colabra Server - Installation Guide for UNIX from Netscape Communications Corporation accompanies each licensed copy of the Netscape Collabra Server.

On-line documentation accompanies the software, and additional documentation can be downloaded from Netscape at *http://www.netscape.com/*.

3. Version Description

3.1 Inventory of materials released

Two 4mm tapes comprise the software delivery. One is labeled "1 of 1; master" and the other "1 of 1; backup." Each tape contains NSCBRA in MakeInstall format. Also included in the delivery is a 3.5" floppy disk containing the delivery documentation.

3.2 Inventory of Software Contents

The software delivered is "Collabra Server, Version 3.01" as produced by Netscape Communications Corporation.

3.3 Changes Installed

Not applicable.

3.4 Waivers

The following delivery documents have been waived by the DII Engineering Office: Software Requirements Specification, Database Design Document, System Administrator's Manual, Software User's Manual, Operator's Manual, and Software Test Plan.

3.5 Adaptation Data

Not applicable.

3.6 Installation Instructions

The *Installation Procedures* were delivered with Version 3.01 of NSCBRA for HP-UX 10.20. This segment requires 200 Mbytes of disk space and 32 Mbytes of RAM.
3.7 Possible Problems and Known Errors

Not applicable.

This page intentionally left blank.

4. Notes

None.
